

Landa 900

What it is

It's a product with high elasticity, obtained by processing **nylon and elastan** together, with controlled and stabilized high twisting tension. It presents a high elasto-mechanical recovery, together with a soft and comfortable touch.

Performances

Landa 900 is a high elastic recovery yarn that gives fabrics an "anti-wrinkle effect" and stretch comfort.

End uses

Accessories

Circular knitting

Flat knitting

Socks
